## PRESS RELEASE

FOR IMMEDIATE RELEASE

### **TCM Brings 63 years of Mechanical Contractor Experience to Eastern Washington Ribbon Cutting Ceremony Marks New Office Opening**

Kennewick, WA – January 19th, 2016

TCM Corp., a leading mechanical contractor with a 63 year history in the Pacific Northwest, held a ribbon cutting and open house for its new office located in Kennewick, WA on Thursday, January 14th. The office marks a permanent commitment to providing the highest level of service to clients and their projects located in Eastern and Central Washington State as well as Eastern Oregon. The event featured a ribbon cutting ceremony and a reading of a Proclamation by Kennewick Councilman, Matt Boehnke, naming TCM “Business of the Day.”

Attended by TCM management including CEO Jay Culbertson, Vice President of Operations Dan Heichelbech, CFO Mike Peck, Vice President of Business Development Kent Grove, as well as others. TCM exemplified its core values with many guests commenting on the event as being a demonstration of doing the right thing and taking pride in our business.

“Our goal in coming over here is to really help this part of the state prosper and grow and that is what we do.” Kent Grove commented during a public speech, “We are hoping we’ll build buildings and companies. We really want to provide the jobs that are needed in your city and to continue to do so going forward.”

TCM Corp.’s new office is located at 450 North Quay Street, Suite B, Kennewick, WA 99336 and will be managed by Kennewick resident and TCM Senior Project Manager, Ryan Hoefer.

---

TCM has been a Portland based, mechanical contractor since 1953 with construction projects located across Oregon, as well as South and Central Washington State. TCM offers a full continuum of services including Engineering, Pre-Construction Services, Design-Build/Design-Assist, Building Information Modeling (BIM), Sheet Metal and Piping Prefabrication, Mechanical and Plumbing Installation and Post Project Services and specializes in the Data Center, Health Care, Industrial, Hospitality, Commercial, and High Tech markets.

“We build critical systems that support living, breathing environments. In order to build such complex systems, we have to build other things, like ducts, piping, teamwork and trust. We work hard, but we also work smart. We use state-of-the-art technology, and we know exactly how our efforts integrate with the entire project. We emphasize integrity and accountability in everything we do. The result is work we all can be proud of.”
